

April 11, 2014

Dave,

Thank you for the excellent, professional job you did with the installation of the new gutters on my home. I would like to extend a warm and sincere thank you to your son as well for a great installation!

You went above and beyond to take care of issues that really had nothing to do with the work you performed, that is greatly appreciated!

It is comforting to know that all of the water that runs off of the roof will be directed away from the foundation.

The gutters give the entire rooftop a very nice finished appearance.

Thank you
Mike
